

PREMCHAND

AI Specialist | Workflow Automation | Marketing Operations

Karachi, Pakistan | premchandmalhi969@gmail.com | +92-331-2603103 | Remote-Ready (U.S. Business Hours)

PROFESSIONAL SUMMARY

AI Specialist with hands-on experience building and deploying automation workflows, AI-powered pipelines, and CRM integrations for business operations. Previously at Autoany, designed voice agents, lead generation systems, and process automations using n8n, Retell AI, GHL, and AI APIs. Skilled at identifying automation opportunities, training teams on AI tools, and documenting repeatable workflows. Comfortable working across technical and non-technical teams in fast-paced, remote environments.

TECHNICAL SKILLS

AI Tools: ChatGPT, Claude, Gemini, Notion AI, Midjourney, Copy.ai

Automation: n8n, Zapier, Make.com, Power Automate, GHL

APIs & Integration: REST APIs, Webhooks, Retell AI, OpenAI API, Anthropic API

CRM & Data: GHL, Airtable, Supabase, Google Sheets, HubSpot, Notion

Lead Generation: SerpAPI, Hunter.io, Apollo.io, Cold Email Sequencing

Languages: Python, JavaScript, JSON

Collaboration: Asana, ClickUp, Slack, Google Workspace, SOP Documentation

EXPERIENCE

AI Automation Specialist | Autoany

Jan 2026 – Apr 2026

Full-time | Karachi, Pakistan

- Built and deployed AI-powered automation workflows for clients across sales, marketing, and operations using n8n, GHL, and third-party APIs.
- Designed and managed AI voice agents with Retell AI for inbound and outbound client call handling and lead qualification.
- Automated lead generation and cold outreach pipelines with AI enrichment, email discovery, and multi-step follow-up sequences.
- Integrated CRM systems via APIs and webhooks to streamline pipeline tracking and real-time client notifications.

PROJECTS

AI Voice Call Center Pipeline

2026

Retell AI, n8n, OpenAI GPT-4o, Supabase, Twilio, Gmail, Slack, Google Sheets

- Built a full AI voice call center with inbound and outbound call handling, multi-event webhook routing, and a 3-agent post-call pipeline: transcript analyzer, lead scorer, and automated follow-up (Hot/Warm/Cold).
- Designed a 5-table Supabase CRM with scheduled campaigns, real-time mid-call data lookups, and a Google Sheets reporting dashboard.

AI Lead Generation & CRM Pipeline

2025

n8n, SerpAPI, Hunter.io, Apollo.io, Supabase, Gmail, Slack

- Automated full lead gen cycle: Google Maps scraping, AI enrichment, email discovery, and personalized outreach for 50-100 leads in under 30 minutes.
- Built a 3-stage email sequence with Gmail reply detection, auto lead scoring, and CRM stage tracking in Supabase.
